Description

Multiplo LED Banners 80 are LED display systems for single or double-sided printing for events, in-store merchandising, shop windows or wherever there is a need for display. Ideal for highlighting high-quality images and enhancing communication and advertisement endeavours. They consist of a lightweight aluminum profile 80mm thick that is not visible from the front, digital fabric printing that changes easily and LED lighting. Reusable prints. Easy and fast setup without tools and technical knowledge. Carrying in bags. Available dimensions 40x100cm, 60x150cm, 100x200cm. They are also available in special dimensions upon request.

CODE	SIZE (WxDxH)	WEIGHT	PRINTING SIZE (WxH)
