Description

Multiplo LED Wall Panel 80 are single or double-sided light boxes that can be placed on the floor, wall or hanging.Ideal for events, in-store merchandising, decoration, advertisement or wherever there is a need for promotion. They consist of an 80mm thick aluminum profile that is not visible from the front, digital fabric printing that changes easily, and LED lighting. Aluminum comes in silver anodized color and there is the possibility of painting in any RAL color. The LED lighting highlights high-quality images and enhances communication activities. Easily transported in pieces. Available in standard dimensions and custom upon request.
